EDUCATION

UPES, Dehradun, India

Aug 2023 – Jul 2027

B.Tech, Computer Science Engineering (Cloud Computing & Virtualization Technology) — CGPA: 7.5

TECHNICAL SKILLS

Programming	Java, Python, C, JavaScript, SQL
Databases & Data	RDBMS Concepts, MySQL, MongoDB, DynamoDB, Firebase
Cloud & Big Data	AWS (EC2, S3, Lambda), Azure, AWS Glue, Athena, Lake Formation, Delta Lake, Apache Iceberg
Development & APIs	React, Flask, REST APIs, HTML, CSS, Docker
Analytics & Productivity	Power BI, Qlik, GitHub Copilot, ChatGPT, Claude
Soft Skills	Analytical Problem Solving, Business Research, Communication, Stakeholder Collaboration, Adaptability

EXPERIENCE

Maruti Suzuki India Limited, Gurugram

Jun 2026 – Jul 2026

Cloud Infrastructure Intern

- Analyzed enterprise multi-VPC AWS infrastructure and end-to-end data workflows spanning CDC ingestion, AWS Glue ETL, Amazon Athena, Lake Formation, Delta Lake, Apache Iceberg, Power BI, Qlik, and S3 Glacier tiering, gaining exposure to enterprise technology and data-driven workflows.
- Worked with the internal team to understand and structure business requirements for internal applications and websites, coordinating with production teams from partner organizations to communicate requirements and design appropriate interface enhancements.
- Contributed to enhancements and maintenance of internal applications on the AWS platform, including an internal cost-tracking application, under the guidance of my mentor and team, following enterprise development workflows and Waterfall-based delivery processes.

Pikeazy, Manesar, Haryana

Jun 2025 – Jul 2025

Research & Digital Strategy Intern

- Drove market research, competitive analysis, and strategic initiatives generating insights for business growth; produced digital and social content that strengthened brand visibility.

All India Citizens' Alliance for Progress & Development

Jun 2024 – Jul 2024

Social Intern

- Led community development initiatives in education and women's empowerment; conducted field surveys and data collection to design targeted, needs-based programs.

PROJECTS

FinGuard – AI-Powered Audit Risk Detection System

github.com/27Khushiyadav/FinGuard

React, Flask, Python, Firebase Authentication, SQLite, Scikit-learn, Docker

- Analyzed financial audit data to identify anomalous transactions and developed a technology solution using Python, Scikit-learn and Isolation Forest for automated audit risk detection.
- Developed a React-based interface integrated with Flask REST APIs and Firebase Authentication, and containerized the backend with Docker to support a reproducible application deployment using Agile development practices.

Emergency Healthcare & Blood Support System

github.com/27Khushiyadav/ReaQLife

HTML, CSS, AWS (Lambda, API Gateway, S3, CloudFront, SNS, IAM, DynamoDB)

- Designed and implemented a serverless AWS architecture to address emergency healthcare workflows, translating requirements for emergency reporting, blood requests, and donor registration into scalable cloud components .
- Developed REST API workflows using Amazon API Gateway and Lambda, integrating DynamoDB for data management and SNS for real-time notifications, while applying least-privilege IAM policies for secure access control.

CLOUD-EMS – Cloud Expenditure Management System

github.com/27Khushiyadav/Expenditure_management_system

Java, Swing, AWS SDK (IAM, EC2, S3, EBS, Lambda)

- Developed a cloud-enabled expenditure management system with GUI for expense tracking, AWS resource provisioning, and secure S3-based report storage using Java and AWS SDK.

PUBLICATIONS

- Co-authored “Cloud Security in Healthcare: Protecting Sensitive Patient Data” — multi-layered Zero Trust architecture integrating Blockchain, IoMT gateways, and Agentic AI for HIPAA/GDPR-compliant cloud systems; IEEE IBI 2026. DOI: 10.1109/IBI68858.2026.11604078

LEADERSHIP & CERTIFICATIONS

- McKinsey Forward Program (Jul 2025)
- Participant, Smart India Hackathon 2025 — applied problem-solving and system-design thinking under time constraints
- Core Member – Editorial Team, ACM Student Chapter, 2024; Organizing Committee, Prodigy – ACM, 2024
- AWS Academy Graduate – Cloud Foundations, Cloud Architecting, Cloud Operations (Mar–Aug 2025)
- Head Intern, AICAPD, 2024
